endorsement.

-- RESEARCH IN PROGRESS: Members engaged in research relating to
recorded sound are invited to announce their projects, and to
encourage communication with others involved in similar inves-
tigations -- hopefully to bring about coordination of informa-
tion and effort with the aim of producing results and reports
thereon. Members may address such announcements to the Corre-
sponding Secretary, indicating whether the information may be
published or whether it should be used only as private office
reference for purposes of answering inquiries.
