What do you call a technological "first" that makes records LAST ... and LAST? Of course!

A UNIQUE APPROACH TO RECORD CARE NOW MAKES TRUE PRESERVATION POSSIBLE

Scientific tests show this safe and simple treatment to be totally effective in eliminating surface fractures caused by stylus generated shock wave. In addition to providing archival surface protection, LAST ... lowers friction ... reduces distortion ... inhibits static ... improves trackability ... increases stylus life ... even revitalizes old records! Because it is not a coating, LAST will not collect on the stylus. Once applied, it remains effective for over 200 plays and provides shelf-life protection for a minimum of 10 years.

NEW! The LAST Industrial Kit.

For the institutional user, LAST is now available in a 16 oz. bottle which, with the optional lab dispenser, will treat about 700 records with ease and efficiency.

INSTITUTE FOR STUDIES IN AMERICAN MUSIC

AMERICAN MUSIC RECORDINGS A Discography of 20th-Century U.S. Composers

A project of the Institute for Studies in American Music
for the Koussevitzky Music Foundation, Inc.

CAROL J. OJA, Editor

A comprehensive, computerized discography including over 13,000 commercial record issues of 8,000 "serious" works by 1,300 twentieth-century American composers. Each entry lists the performers' names, record company name, record number, and release and deletion dates. Four indexes provide easy access to performing groups, vocalists, conductors, and instrumentalists.

A landmark research tool long needed by scholars, music librarians, record collectors, record archivists, and radio-station personnel.
