

BIBLIOGRAPHY OF DISCOGRAPHIES
ANNUAL CUMULATION -- 1975

Edited by

Michael Gray and Gerald Gibson

INTRODUCTION

For some time now virtually every user of discographies, regardless of subject, has agreed upon the need for a comprehensive bibliography of discographies. It was generally conceded, however, that the difficulty of attempting such a diversified bibliographic project was so great that it would be impossible for one or two people to attempt. After due consideration and some preliminary work (a number of you are probably aware of inquiries made by the editors of this bibliography in the periodical literature covering the field of sound recordings), we proceeded to contact several persons with strong discographic reputations in their respective subject fields to ask if they would be interested in working with us to produce a comprehensive bibliography of discographies to be published annually in the ARSC Journal. In each instance we met with overwhelming enthusiasm and, as the following bibliography will attest, we have received marvelous co-operation.

The contributors and their subject areas are: Country and Hillbilly--Norm Cohen, Playa del Ray, California; Blues-Gospel--David Evans, Anaheim, California; Jazz--Daniel Allen, Toronto, Canada, and Classical--Michael Gray and Gerald Gibson, Washington, D.C. A recent addition to the "stable" in the area of Rock is Steve Smolian, Catskill, New York. As you can see, the areas of Folk, Ethnic and Popular Soul have not been covered in this bibliography; it is hoped that this oversight will be rectified in the near future.

With this list of contributors we have attempted what we hope is a comprehensive search of the various fields of publication which would

include discographies. The intention is to include a citation for any discography regardless of length, completeness or accuracy. It would have been desirable to have included editorial comment on the merit of each discography cited, but due to the size of the project this was completely out of the question. No discography has been intentionally excluded. The intent, on the contrary, is to have full coverage. Therefore, if you are aware of any discography that was published during the period in question, by all means please send its citation to the editors who will gladly receive notification of it for inclusion in a future bibliography of discographies. It is the intent of the editors that this bibliography should appear annually in the ARSC Journal and that it will cover discographies published in the previous calendar year.

As in the 1974 Bibliography, a single A-through-Z, letter-by-letter alphabet of subjects is used to organize the material. The subjects chosen are those as used in the Library of Congress with the choice of subject entry being the most specific possible for that particular item. It seems logical to the editors to choose the Library of Congress form of the subject entry since it is the most complete listing of subjects known to the editors; it has one of the widest circulations of such lists; and it is the form of subject entry with which the two editors most actively work. If we are aware of variant spellings and forms of entry, then suitable cross-references have been furnished.

When setting up the machinery to compile this bibliography it was assumed that all discographies consulted would contain certain elements—the composer/author and title of the work recorded, and in the case of a commercial recording, the name of the issuing company and its true issue number. We subsequently discovered a few discographies which do not include all of this primary data but the vast majority (in excess of 99 percent) do.

In order to reveal additional information, descriptive of each discography, there will be

and citations from them appear in this Bibliography:
